

# Shine Your Golden Light on Me

By Dr. Maggie Allen

I look into the sky,  
A great big light I see.  
It shines on all our earth,  
It shines on you and me.

Shine, oh, shine,  
Shine your light on me.  
Shine, oh, shine,  
Shine your golden light on me.

The sun, it is so hot.  
It gives our side of earth daylight.  
It makes us feel so warm,  
And shines on the other side at night.

Shine, oh, shine,  
Shine your light on me.  
Shine, oh, shine,  
Shine your golden light on me.

The sun gives us so much  
Heat and light, we know,  
Solar power and energy,  
And it helps the plants to grow.

So,  
Shine, oh, shine,  
Shine your light on me.  
Shine, oh, shine,  
Shine your golden light on me.
